Summary

Versatile Full Stack Web Developer with 1+ years of experience engineering high-quality, responsive web applications from concept to deployment. Proficient across the stack, utilizing React, TypeScript, and Tailwind CSS on the frontend, alongside Node.js, Express.js, MongoDB, and RESTful APIs on the backend. Experienced in collaborative agile workflows using Git and GitHub, with a strong commitment to writing clean, maintainable code and solving complex technical problems.

Work Experience

Frontend Developer Intern

Tech Studio Academy | Internship

April – May 2026

- Collaborated with a team of developers to build the frontend of the **Miles Car Rental** platform, a full-stack vehicle reservation and fleet management application.
- Developed responsive and reusable user interface components using **React, TypeScript, and Tailwind CSS**.
- Integrated frontend components with backend REST APIs to deliver a seamless booking experience.
- Worked with Git and GitHub for version control and team collaboration.
- Participated in code reviews, debugging, and feature implementation throughout the development lifecycle.

Projects

Laundry Wash Platform | Full Stack Developer

August - December 2025

Technologies: React, JavaScript, Tailwind CSS, Node.js, Express.js, MongoDB

- Designed and developed both the frontend and backend of an on-demand laundry service platform.
- Built RESTful APIs to manage user authentication, bookings, and service requests.
- Developed responsive user interfaces focused on usability across desktop and mobile devices.
- Integrated frontend and backend to provide a smooth booking and order tracking experience.
- Managed application data using MongoDB and Mongoose.

Task Duty | Full Stack Developer

April 2026

Technologies: React, JavaScript, Tailwind CSS, Node.js, Express.js, MongoDB

- Developed a task management application that enables users to create, organize, prioritize, and track tasks.
- Built both the client-side interface and backend API for efficient task management.
- Implemented CRUD functionality, responsive layouts, and secure data handling.

Skills

Programming

JavaScript, Typescript

Frontend Development

HTML, Tailwind CSS, React,
Tan Stack Query (React Query)

Database Management

MongoDB

Version Control

Git, GitHub

Backend Development

Node.js, Express.js
